## ABOUT THE PROJECT

**Supported by:** Erasmus + programme

**Period:** 01.09.2017 – 31.08.2019

### Description:

Main aim of this project is to provide an opportunity to emerging youth workers to gain knowledge, skills and practical experience necessary for supporting youth especially those from marginal backgrounds (ethnic minorities, low income families, etc.), vulnerable situations (disabilities, linguistic barriers, etc.) and NEET's (not in employment, education and training). The project will contribute to the professional development of a group of youth workers in education and/or training in Macedonia, Estonia and the United Kingdom through involving them in training and practical working experience in all nations, as well as through developing tools both off and online that they can use in their future work in this field. One of the major aims of the collaboration is the development of accreditation and recognition of professional youth work both in the UK, Estonia and Macedonia as well as Europe and even on a Global context.

## INFORMATION ABOUT THE VENUE

I guess you already googled Macedonia to get a general idea about where you will be travelling and living during your EVS experience.

Well, let me tell you a couple more things. It's a small country located in the heart of the Balkan region. Official language is Macedonian, which uses the Cyrillic alphabet! Its neighboring countries are Serbia (North), Bulgaria (East), Greece (South) and Albania (West).

The official currency is Macedonian DENAR (MKD).

**Kumanovo**, our town, is located in the North-Eastern region of the country. It is the first largest municipality of Macedonia and it's a very ethnically mixed city that is very rich in cultural varieties. Our offices are located in the center of the city (less than 5 min walking distance from the central square) and the youth center is in the suburbs of Kumanovo (15 min walking distance from the center), but you will also get the chance to visit nearby rural areas.

Since the central part of the city is not that big, you will not need to use local transportation. All the bars, cafes and pubs are located either in **Garnizon** or on the nearby streets. The city has a theater, several small parks and a riverbank suitable for long walks or jogging, basketball and tennis courts, as well as a public indoor and outdoor pool, .

The clubbing choice includes summer and winter clubs.

In *Summer*, the place to be is Space. Located a bit outside of the city, it gathers all the youth of Kumanovo for parties from Thursday through Sunday.

In *Winter*, the choice of clubs includes Revolution, close to the square and Tunel. Besides the regular parties, international DJs come to mix music sometimes, or Balkan bands have gigs.

If you are tired of going out in Kumanovo, there is always the option to party in Skopje, which has a more diverse nightlife and more cultural events.

## OTHER PLACES TO VISIT

Interesting places to visit around Kumanovo include the medieval church located in **Staro Nagoricane**, a place some 20 km away from the city. Also in that area you can visit **Kokino**, an archaeological place that contains a megalithic observatory and sacred site – the Macedonian version of a Stonehenge (click for info about the [St. George church](#) and about [Kokino](#)).

**Skopje**, the capital of Macedonia, is only 30 km away from Kumanovo. You can use your weekends to go shopping in the big malls, to visit [Matka Canion](#), a stunning place where you can hike, kayak, visit caves or just have a rest from the city. The old town is packed with delicious food and old bars and cafes. Skopje hosts music festivals, cinema festivals, concerts and other national and international events that are worth attending. You can also visit the Kale fortress on the top of a hill, the Millenium Cross which offer a cable car ride to get up there, the city park and a great choice of old churches, mosques, and museums.

Finally, around Macedonia there are other cities and places that you should not miss. The most famous one is probably **Ohrid**: Located on the Ohrid lake, it is believed to be the town of 365 churches from different periods of Macedonian history. Besides the beautiful landscapes, the city offers a package of active visiting: boat trips, visiting caves, paragliding, etc. Its population is multicultural, due to its position near to the border with Albania, and it also hosts many visitors, tourists, curious travelers. (more info [here](#)).

In **Tetovo**, you can visit a very special mosque, which has all its murals painted. It is one of the very few mosques in the region that doesn't follow the canon of sobriety in design, thus making it worth seeing. Another beautiful place, located in the south of the country, is the **Dojran** lake. In Summer several festivals are happening there, and it is also a place to go for a short vacation.
